

TAW FIELD SERVICES

The TAW Field Services team provides comprehensive solutions for mechanical repair needs across a wide variety of technologies. Our technicians find answers to complex mechanical challenges every day. We make it our mission to fully understand industrial processes, applications, requirements, equipment needs, performance expectations, budgets, and timelines as they pertain to your industry, your business and specifically, your equipment.

Our expertly trained technicians will provide routine monthly or quarterly maintenance, ensuring that your equipment is running at peak efficiency. They provide service, installation, trouble-shooting and can plan to work during your pre-planned outages.

DON'T TAKE CHANCES WITH SAFETY AND PRODUCTIVITY. TAW FIELD SERVICES HAS GOT YOU COVERED: 24/7/365

TAW Emergency Electrical/Mechanical Field Services include 24/7 support across the Southeastern United States, the Caribbean Central, and South America. So, if something isn't working, our highly trained and skilled technicians will be there FAST to restore your operation to normal as quickly as possible, 24-hours a day, 7-days a week, 365-days a year. But why wait for a valuable piece of equipment to stop production? Our team will assess your systems and components and identify issues before they arise, to help prevent unplanned outages.

Trust in TAW expertise. We've helped businesses like yours run at peak efficiency for over 100 years.

Field Services team will keep your equipment running safely, efficiently, and reliably with regularly scheduled preventive maintenance.

A TRADITION OF INTEGRITY

Founded in 1921 by J. Arthur Turner, Sr. and three associates, TAW began its history of excellence by hiring dedicated service professionals and expert craftsmen in the field of electric motor repair and service. The company has carried this core belief of employing the best, in order to provide comprehensive repair services through expertise and knowledge. The standards and level of quality at TAW are simply unmatched in our industry. Our motto - then and now - is "Industry's Friend." And though the industry and our business model have evolved, all our customer transactions are still based on the principles of quality, value, honesty and integrity.

TAW FIELD SERVICES

We Keep Motors Running At Peak Efficiency

Your Ultimate Power Partner.

MECHANICAL FIELD SERVICES

MAINTENANCE & REPAIR

TAW® is the industry leader when it comes to preventative maintenance for every type of rotating equipment, including motors, pumps, fans, blowers, and mills. Our mechanical field services include predictive maintenance programs to determine the condition of the critical parts of your rotating equipment. This includes inspection and service of bearings, lubrication, alignment, base, and pipe stress to prevent downtime and extending the life of your machines.

All our testing programs are designed to identify potential areas for machinery failure. We start with scheduled data collection at pre-determined intervals – monthly, quarterly, or other set times. Then we analyze the data and provide your team with detailed reports and recommendations on the status of the wear on your machinery and how it is trending to extend its lifetime and avoid unscheduled downtime ultimately.

FIELD SERVICE PROGRAM OFFERINGS INCLUDE:

- Vibration - Analysis/Monitoring/Report
- CSI/Commtest - Vibration Platform
- Laser/Thermal Alignment - Motor/Pumps
- Thermography (IR) - Inspection/Analysis/Reporting
