

WE ENSURE YOU HAVE THE POWER YOU NEED – WHEN YOU NEED IT MOST

ALL THE SOLUTIONS YOU NEED FOR THE SUPPLY, CONTROL, AND USE OF ENERGY.

TAW® Power Systems is the most trusted name in the Southeast, providing service, sales and support for your emergency generator systems. Since 1921, TAW has been committed to providing superior service and quality products for medical, municipal, commercial and industrial applications. TAW is the only authorized distributor for KOHLER Power Systems throughout Florida. With more than 60+ factory-trained and certified generator technicians, you can be confident TAW Power Systems will ensure you have power – when you need it most.

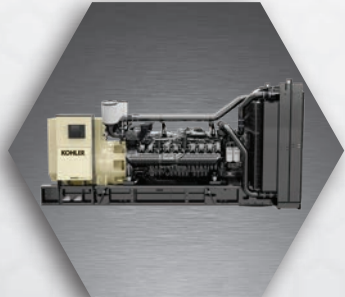

TAW PRODUCTS AND SERVICES INCLUDE:

DIESEL, NATURAL GAS AND LP GENERATORS 5 TO 4,000KW
From small-load business applications to uses in heavy industry, every KOHLER generator is engineered to provide maximum power, performance, flexibility and fuel efficiency.

GENERATOR CONTROLS
KOHLER offers controls to handle any application, from basic functions to sophisticated remote monitoring technology. With Advanced Program Management (APM) models to match your needs, KOHLER meets UL508A, NFPA 99 and NFPA 110 specifications.

AUTOMATIC TRANSFER SWITCHES
When your utility power fails, the KOHLER® automatic transfer switch senses a loss of power and immediately starts the generator. Once utility power has been restored, the transfer switch shifts your business back.

PARALLELING SWITCHGEAR
From a basic emergency standby system, to a complete multi-generator, multi-source system, KOHLER offers an economical way to parallel generators together or to the utility, with its complete line of PD-Series automatic paralleling switchgear to main power and shuts down the generator.

Your Ultimate Power Partner.

MAXIMUM POWER AND PERFORMANCE.

When you need it. Where you need it.

Providing service, sales, and support for emergency generator systems.

GENERATOR RENTALS

WHETHER FOR A NATURAL DISASTER, PLANNED POWER OUTAGE OR SOMETHING OUT-OF-THE-BLUE, TAW POWER SYSTEMS PROVIDES THE POWER — WHEN AND WHERE YOU NEED IT — TO CONTINUE NORMAL BUSINESS OPERATIONS.

TAW is a forward-thinking, horizontally integrated company that leverages our years of experience, engineering expertise, and wide-ranging services, to meet the power demands and time constraints of our corporate, industrial, and agricultural clients, including banks, hospitals/health care facilities, municipalities, data centers, institutions, factories, farms, and other industrial complexes.

TAW Power Systems is a comprehensive, temporary or permanent, on-site power systems provider. Our value blueprint is designed to deliver to our customers, reliable, world- class generators at a moment's notice. These methods are combined with a cordial and consistent customer transaction experience and reinforced with fully equipped, factory trained and technically accountable field technicians located across the southeastern states of Florida and Georgia, and along 2,000 miles of protected saltwater coastline.

TAW provides a wide-range of diesel fueled rental Gen-Sets designed to meet all your emergency power needs — ranging from 20 to 2,000 kilowatts. We offer turnkey installation of all generator systems, training, and accessories, such as fuel tanks, cable, and transformers. Our experienced technicians service, fuel, and maintain our generator systems to ensure reliable and efficient performance for our customers in the southeastern United States.

We not only assist with engineering the emergency power system to your application, we also have a long-established generator service group capable of diagnosing and repairing any problems associated with your generator 24 hours a day, 365 days a year.

WHEN AN UNPLANNED OUTAGE OCCURS, TAW GENERATOR RENTALS PROVIDES THE POWER YOU NEED, WHERE YOU NEED IT.

AN OUTAGE IS AN EMERGENCY YOU CAN'T AFFORD. BE PREPARED WITH TAW.

1 DEMAND SERVICE - IMMEDIATE RESPONSE

For those unplanned, forced outages TAW offers an Immediate Response Plan. We'll quickly expedite an engine generator with cables to your site.

2 DEMAND SERVICE - PLANNED RESPONSE

For your next planned shut-down, maintenance or electrical system change-out, reserve a generator system in advance to save you the extra employee overtime costs. This solution allows you to take advantage of our comprehensive coordination in advance of your outage.

3 CONTINGENCY INSURANCE PLAN

Prepare for major weather events in advance by reserving a generator system for a specific period of time, such as the six-month hurricane season, winter ice storms or spring-time tornadoes. TAW will deliver your generator when you need it.

4 DERT RESPONSE

When it's time to call for all hands-on deck, our Disaster Emergency Response Team is who you need. TAW's team will provide complete emergency power services nationwide from coordinated logistics, transport to-and-from sites and redeployments, to building connection assistance, operating inspections and fueling services. DERT requires pre-arranged contract services and is the perfect solution for multiple facility users.

TAW POWER SYSTEMS PROVIDES:

- Quick response and reliable service 24/7/365
- Competitive pricing
- Comprehensive, turnkey assistance
- Assistance with sizing
- Assistance with applications

PRODUCTS AND SERVICES INCLUDE:
