

BOILER FEED • WASHING & CLEANING • COOLING & THERMAL

BM, BMS

Booster module with directly coupled pump and variable frequency drive

CM, CME

Non-self-priming, horizontal, multistage, end-suction centrifugal pumps

CR, CRE

Energy efficient vertical inline multi-stage pumps

CRE Plus

A simplex energy efficient vertical inline multi-stage plug-and-pump system with control capability through an integrated VFD

CR-H, CRN-H, CRE-H, CRNE-H

Inline multi-stage pumps for an ANSI dimensional solution

CRN MAGdrive

Vertical inline multi-stage pump with magnetic drive for aggressive liquids

MTA

Low-pressure pumps specifically designed for filtering systems in the machine tool industry

MTR, MTC

Vertical, multistage pumps designed for cooling lubricants and condensate transfer

TP, TPE

Single-stage, in-line centrifugal pumps

DME

Dosing pumps that combine perfect precision with user-friendliness for large dosing quantities from 15.9 to 248gph

DMH

Robust dosing pumps for reliable and high pressure applications up to 2900 psi

SMART Digital

Intelligent dosing pumps with a new drive and adjustments mechanisms

DMX

Mechanical diaphragm metering pumps

LF, LFE

Frame mounted end suction PACO pumps available with integrated MLE variable speed motor to optimize energy efficiency

KP, KPV, KPVS

Horizontal and vertical PACO split case pumps. KPVS offers vertical split coupled design in small footprint.

Peerless 8196

Heavy-duty ANSI process pump that withstands abrasive and corrosive liquids

Peerless 8175

Heavy-duty industrial paper stock slurry pumps

Peerless 8796

Self-priming industrial pumps

F, C

General purpose, frame mounted, end suction pumps flexibly coupled to drivers and equipped with coupling guards

AE

Single stage, double suction pumps available in 42 hydraulic configurations and 25 pump sizes

TU, TUT

Multi-stage, single suction, horizontal pumps

Control MPC

Advanced controller for motoring and control of up to 6 pumps

CHEMICALS

CM, CME

Non-self-priming, horizontal, multistage, end-suction centrifugal pumps

CR, CRE

Energy efficient vertical inline multi-stage pumps

CR-H, CRN-H, CRE-H, CRNE-H

Inline multi-stage pumps for an ANSI dimensional solution

CRN MAGdrive

Vertical inline multi-stage pump with magnetic drive for aggressive liquids

DMH

Robust dosing pumps for reliable and high pressure applications up to 2900 psi

DMX

Mechanical diaphragm metering pumps

LVA, TFA

ANSI process pumps that withstands corrosive and abrasive liquids

F, C

General purpose, frame mounted, end suction pumps flexibly coupled to drivers and equipped with coupling guards

Peerless 8196

Heavy-duty ANSI process pump that withstands abrasive and corrosive liquids

Peerless Fire Systems

Market-leading Peerless-brand fire pump units, systems, and housed packaged systems

TU, TUT

Multi-stage, single suction, horizontal pumps

VT

Highly efficient vertical turbine pump provides a wide range of hydraulic and mechanical coverage; offered in numerous material and design

SMART Digital

Intelligent dosing pumps with a new drive and adjustments mechanisms

Your Ultimate Power Partner.

THERE'S A PUMP FOR EVERY PURPOSE.

At TAW, We Sell, Service And Maintain Them All.

Throughout the United States, TAW is the leading provider of pumps, with turn-key comprehensive services that include installation, pump repair, maintenance and requirements for every industry and virtually every purpose. Our facilities and mechanical service teams are equipped to handle any size pump for your industrial and commercial needs. Further, TAW engineers ensure proper machining, reconditioning, coating and modifications that will extend the life of your pumps and rotating elements, while keeping you on schedule with repairs.

For Purchase, Repair or Maintenance
Call TAW Toll-Free 800-333-9449, or email us at tawinfo@tawinc.com.

TAWPBR

TAW OFFERS A COMPREHENSIVE RANGE OF PUMP SOLUTIONS.

TAW mechanics and engineers service, maintain and repair the broadest range of pump systems for every conceivable application, including: food processing and manufacturing; chemicals and complex liquid compositions; general industry; boiler feed pumps customized with low NPSH; pumps required for washing and cleaning at varying temperatures or with corrosive media; cooling and thermal systems with high temperature applications; waste and wastewater treatment systems, including systems with accurate dosing of additives; and pumps for fire systems.

From low flow pumps to large, high-performance systems that move over 420,000GPM, TAW is the only source you need for pumps, comprehensive pump repair, service and maintenance. For more information call today or visit us online. Our services and expertise are sure to pump you up!

WE SELL AND SERVICE SOME OF THE WORLD'S TOP BRANDS, INCLUDING:

wilo

Call TAW today. Our highly experienced team can help you with pumps of virtually every size and application.

GENERAL INDUSTRY

Peerless 8196

Heavy-duty ANSI process pump that withstands abrasive and corrosive liquids

LVA, TFA

ANSI process pumps that withstands corrosive and abrasive liquids

CR-H, CRN-H, CRE-H, CRNE-H

Inline multi-stage pumps for an ANSI dimensional solution

CR, CRE

Energy efficient vertical inline multi-stage pumps

VT

Highly efficient vertical turbine pump provides a wide range of hydraulic and mechanical coverage; offered in numerous material and design

SMART Digital

Intelligent dosing pumps with a new drive and adjustments mechanisms

MTA

Low-pressure pumps specifically designed for filtering systems in the machine tool industry

MTR, MTC

Vertical, multistage pumps designed for cooling lubricants and condensate transfer

SP

Submersible pumps renowned for high efficiency and reliability

Peerless 8175

Heavy-duty industrial paper stock slurry pumps

Peerless 8796

Self-priming industrial pumps

KP, KPV, KPVS

Horizontal and vertical PACO split case pumps. KPVS offers vertical split coupled design in small footprint.

CRN MAGdrive

Vertical inline multi-stage pump with magnetic drive for aggressive liquids

F, C

General purpose, frame mounted, end suction pumps flexibly coupled to drivers and equipped with coupling guards

TU, TUT

Multi-stage, single suction, horizontal pumps

AE

Single stage, double suction pumps available in 42 hydraulic configurations and 25 pumps sizes

LF, LFE

Frame mounted end suction PACO pumps available with integrated MLE variable speed motor to optimize energy efficiency

Taber Vertical

Self priming vertical process pump

FOOD & BEVERAGE

BM, BMS

Booster module with directly coupled pump and variable frequency drive

CM, CME

Non-self-priming, horizontal, multistage, end-suction centrifugal pumps

CR, CRE

Energy efficient vertical inline multi-stage pumps

CRN

High pressure, multipurpose pump

SMART Digital

Intelligent dosing pumps with a new drive and adjustments mechanisms

DME

Dosing pumps that combine perfect precision with user-friendliness for large dosing quantities from 15.9 to 248gph

DMH

Robust dosing pumps for reliable and high pressure applications up to 2900 psi

DMX

Mechanical diaphragm metering pumps

LF, LFE

Frame mounted end suction PACO pumps available with integrated MLE variable speed motor to optimize energy efficiency

Hydro MPC BoosterpaQ

Our premier fully integrated pre-engineered packaged pumping system with advanced control capability and energy efficient vertical inline multi-stage pumps

TPE

Vertical in-line pump featuring a motor with built-in frequency converter

F, C

General purpose, frame mounted, end suction pumps flexibly coupled to drivers and equipped with coupling guards

WATER & WASTEWATER TREATMENT

BM, BMS

Booster module with directly coupled pump and variable frequency drive

CM, CME

Non-self-priming, horizontal, multistage, end-suction centrifugal pumps

CR, CRE

Energy efficient vertical inline multi-stage pumps

DME

Dosing pumps that combine perfect precision with user-friendliness for large dosing quantities from 15.9 to 248gph

DMH

Robust dosing pumps for reliable and high pressure applications up to 2900 psi

SMART Digital

Intelligent dosing pumps with a new drive and adjustments mechanisms

DMX

Mechanical diaphragm metering pumps

OXIPERM PRO

Chlorine dioxide production systems for fighting Legionella and other germs in drinking water

Dosing Tank Station

Intended for storing and dosing liquid chemicals. Many different configurations can be selected and applied flexibly to fulfill various dosing tasks

SL Range

Submersible pumps designed to handle sewage, effluent and large volumes of surface and process water

S Range

Designed for pumping raw water, unscreened raw sewage, water containing sludge and industrial effluent

SEG

Submersible grinder pump for pumping effluent and sewage in small communities or areas without sewer systems

Sewer Chewer

Wastewater and sludge grinder featuring state-of-the-art twin-shaft design

VT

Highly efficient vertical turbine pump provides a wide range of hydraulic and mechanical coverage; offered in numerous material and design

SMD, SMG, SFG

Mixers and flowmakers prevent sedimentation and support processes in a variety of applications

SRG

Created to handle large flows against low head

Hydro MPC BoosterpaQ

Our premier fully integrated pre-engineered packaged pumping system with advanced control capability and energy efficient vertical inline multi-stage pumps

FIRE PROTECTION

AEF

Peerless horizontal split-case fire pump

TUF, TUTF

Peerless horizontal split-case multi-stage fire pumps

PVF

Peerless inline fire pump

Peerless Fire Systems

Market-leading Peerless-brand fire pumps units, systems, and housed packaged systems

VTF

Peerless vertical turbine fire pump

FireConnect

Cloud based monitoring system allows user to remotely monitor and manage fire pump systems
