

TAW SERVICE CENTERS: QUICK FACTS

FIVE SERVICE CENTER LOCATIONS LOCATED THROUGHOUT FLORIDA

- Miami
- Tampa
- Orlando
- Lake City
- Jacksonville

243,725 SQUARE FOOT STATE TOTAL FACILITY BUILDING SPACE

- Miami - 53,658
- Tampa - 95,564
- Orlando - 16,375
- Lake City - 10,800
- Jacksonville - 67,328

FOCUS AREAS INCLUDED BUT NOT LIMITED TO

- Miami - Motor repair, large and small. Store Front that sells new motors and accessories. Large Turbine Generators
- Tampa - Motor repair, large and small, Generator Mfg. Safety Related and Nuclear Motors
- Orlando - Motor and pump repair, theme park emphasis
- Lake City - Motor and pump repair, heavy agriculture emphasis
- Jacksonville - Motor repair, large and small field services, large DC rewinds

SERVICES INCLUDE

- Service & Repairs (Motors and Pumps)
- Testing & Diagnostics
- Overhaul Services
- Retrofit & Redesign
- Engineering
- Reporting
- Maintenance Plans
- New Equipment Sales

TAW® is a registered trademark of Tampa Armature Works, Inc. and Subsidiaries.

BRIEF HISTORY

In 1921, James Arthur Turner, Sr. (Arthur) took an idea and turned it into the American Dream. Arthur's dream was to open his own motor repair shop. At great expense, in those early days, the phosphate mining companies maintained their own electric motor repair shops and spare motor inventories. Arthur saw opportunity for an independent company that could rewind and repair motors for phosphate companies — more economically and efficiently.

In early 1932, Arthur and his partners were down to their last \$25, with no work in sight. They were “fixin” to quit and close-up shop. Salvation for the company came only after giving all they had — literally! A woman from the Salvation Army entered the shop and asked them for a donation. They looked at each other and agreed to do some good; they donated their last \$25. An hour later, the Florida Asphalt Block Paving Plant in Pinellas County burned down. They gave TAW a \$24,000 order to rebuild their motors and rewire the plant. Arthur said, regarding the Salvation Army gift, “I had felt it might have been the wind that blew the tree in the right direction.”

In 1965, J. Arthur Turner, Jr. (Jake) took over as President of TAW. Jake was a “Hands-On” manager, not afraid to make decisions. He continued to manage the company and emphasized a family-style employee relations, with a demanding “heart of gold,” sense of fairness and caring. His dedication to the customer was defined in his motto: TAW was “Industry’s Friend.” Jake expanded operational capacity in 1975, by building the Tampa Service Center. He invested in the newest state-of-the-art equipment and increased shop quality and productivity through technology. He refocused operations by selling, consolidating, buying, and expanding business operations. Jake “formally” retired in 1988.

The year his father retired, J. Arthur Turner, III (Bubba), accepted the leadership role of the company. Bubba has successfully taken TAW into today's complex corporate business climate. Under his direction, TAW has established itself as the largest, independent and privately held industrial service business in the United States — within our industry.

His legacy continues to be one of growth, through business development and acquisition, and by structuring TAW as a “family of service companies.” Additions to TAW services in the wake of this growth, include: TAW Technical Field Services, Inc., TAW Orlando Service Center, TAW Miami Service Center, and TAW Power Systems with added locations throughout the state of Florida.

TAW's history has been based on a long tradition of service and excellence, with a single-minded focus on the customer by loyal and dedicated employees at all levels. This formula continues to work as well today as it did 100 years ago and will ensure a bright future for our TAW family.

MOTORBOOK

Your Ultimate Power Partner.

POWER UP WITH TAW® SERVICE CENTERS

Your industry leader providing quality repair and efficient maintenance of rotating equipment.

We repair motors of all sizes, from specialty fractional motors, to motors that produce 50,000 HP.

TAW MOTOR SERVICES

TAW's Service Centers, or "motor shops," are the company's legacy business on which we built our foundation. TAW services and sells motors, pumps, drives, and related equipment, offering both in-shop and field service solutions including repairs, replacement, and predictive maintenance.

As a testament to the dedication and ingenuity of our team: TAW engineers and mechanics built—for a client—a 7,000-horsepower motor from scratch using 40-year-old schematics, recreating and fabricating parts that are no longer in production. Just imagine what we can do for you.

No matter how large or small your project, our multiple, fully equipped machine shops are dedicated to providing quality, quick turnaround times, and the best value with unsurpassed ingenuity.

TAKE TAW MOTOR SERVICES FOR A SPIN AND YOU'LL NEVER TURN BACK.

** Safety Related Motors are Tampa location only.*

INDUSTRIES SERVED

TAW's expertise encompasses total system solutions for rotating electrical and mechanical apparatus and the associated controls serving customers around the world in industries such as fossil, renewable and nuclear power generation, homeland security, steel, chemical processing, and health care to name a few.

Here are other industries that rely on TAW:

- Chemical
- Citrus
- Commercial Facilities
- Entertainment and Theme Parks
- Food Processing
- Government
- Mining/Aggregate
- Military
- Pulp and Paper
- Utilities
- Water and Wastewater
- And More

SERIOUS EXPERTISE WITHOUT THE SPIN.

As the largest independent distributor of motors, motor controls, variable frequency drives, pumps and rotating apparatus in the Southeastern United States, TAW provides comprehensive solutions for mechanical repair needs across a wide variety of technologies. Our engineering and repair teams supply solutions to complex mechanical challenges every day. We make it our mission to fully understand industrial processes, applications, requirements, equipment needs, performance expectations, budgets, and timelines. Our more than 100 years of experience has given us unique insights into meeting your industry needs and exceeding your expectations.

INDUSTRY RUNS ON THE POWER OF MACHINERY

When your critical equipment goes down, production stops. No industry can afford to be offline — it's why more companies turn to TAW. TAW leads the industry in repairing, rewinding, and rebuilding electrical motors of all sizes, and we've done so since 1921. Our UL® Certified motor shops are dedicated to service, quality, quick turnaround times, and the best value. The nationally recognized quality control systems in our plants exceed all industry standards. Here are some of the services we can provide for you.

TAW ELECTRICAL MOTOR REPAIR SERVICES INCLUDE:

- Rewinds
- Reconditions
- In-shop or on-site repairs
- Rotor and stator iron restacking
- State-of-the-art diagnostic equipment
- Load test capability
- Modifications
- Full voltage testing to 13.8 kV
- Turnkey services
- Babbitt bearing repairs

REPAIR, REFURBISHMENT & REPLACEMENT

- Circulating Water Pumps
- Vertical & Horizontal Pumps
- Blowers & Compressors
- Gear Assemblies
- Vacuum Pumps

SITE WORK

- Cooling tower repairs
- Welding repairs
- Alignment
- Removal and installations
- Analysis
- Dynamic balancing
- Machining
- Laser alignment
- Gear alignment
- Motor repairs

COATINGS & FABRICATIONS

- Ceramic, epoxy, and metal coatings
- Cast iron and specialty alloy welding
- Custom fabrications

PREDICTIVE MAINTENANCE

- Vibration analysis
- Thermography
- Motor testing
- CSI/Commtest
- Wear oil analysis

NEW EQUIPMENT SALES

MOTORS, MOTOR CONTROLS, DRIVES, PUMPS AND ROTATING EQUIPMENT

TAW is the premier distributor of industrial power equipment. Since 1921, we have been the most significant independent distributor of industrial power products in the Southeastern United States, while also servicing the Caribbean and Central America.

Our team of comprehensive application specialists do more than sell power products. As an industrial power equipment provider, we also offer turnkey project solutions, from designing, building, and installing, to ongoing engineering support, testing, commissioning, and maintenance. Our comprehensive service and support capabilities are available 24 hours a day, 7 days a week.

OUR PRODUCTS

TAW is a distributor of best-in-class industrial power product categories, including:

- Motors - NEMA, DC/AC, IEC, Abive NEMA, Servo, and Accessories
- Motor controls - Across the line, Low/Med Voltage, Soft starter, VFDs
- Variable frequency drives - Parts and Accessories
- Generators - KOHLER generators and parts
- Pumps and blowers - ANSI, Vertical, Horizontal, Multi-stage
